# BIGGEST LAWSUIT OF AMERICAN COURTS.

## Central Pacific Minority Stockholders Want Over \$100,000,000 from Huntington's Estate.

(BY DIRECT WIRE TO THE TIMES.)

NEW YORK, Nov. 24.—[Exclusive Dispatch.] What will probably be the biggest lawsuit ever brought in the courts of the United States, from the standpoint of the amount of money involved, has been begun in the action brought by Walter Morehead and the minority stockholders of the Central Pacific Railroad to recover more than \$100,000,000 from the estate of Collis P. Huntington, which sum the plaintiffs declare the stockholders of the Central Pacific Railroad were defrauded of by the machinations of Huntington, Stanford, Crocker, and Mark Hopkins, known in the gigantic railroad deal of years ago as the "Big Four."

The plaintiffs have secured from the Supreme Court an order to show cause why the executors of the Huntington estate should not file an inventory of the estate so that they may know how many millions they may recover, if the suit is successful, as the entire Huntington estate would undoubtedly be swallowed up, whereupon suits would be begun against the heirs of Stanford, Crocker and Mark Hopkins.

According to the complaint, when "Collis P. Huntington and other members of the "Big Four" were officers and directors of the Central Pacific Railroad, organized to build several thousand miles of lines, they gave contracts for the construction of the road to certain equipment and construction companies, owned and controlled by themselves.

The complaint, in stating that \$30,000,000 worth of bonds were issued by the United States government for the purpose of aiding in the construction of the Central Pacific, says: "In pursuance of these fraudulent arrangements, the said Huntington and his associates, from time to time, delivered to them-

an entirely different company from the English company which is now managing the affairs of the Grand Trunk. All the directors will be Canadians, and nearly all the capital will be supplied by Canadians. He also stated that the route to the Pacific Coast originally selected for the Canadian Pacific, and surveyed by Sir Sanford Fleming, will be the one used.

### NEW DIVISION CREATED.

B. AND M. SPLITS WYOMING.

(BY THE ASSOCIATED PRESS—P.M.)

OMAHA, Nov. 24.—An order has been issued from the headquarters of the Burlington and Missouri River Railroad, creating a new division. The order, which will become effective December 1, will divide the present Wyoming division at Newcastle, Wyo.

The main line and branches east of that point will be known as the Alliance division, and all lines west of that point will be known as the Sheridan division.

J. P. Phelan will become superintendent of the Alliance division, and E. S. Gillette will have charge of the Wyoming division, with headquarters at Sheridan.

### PUSHING WORK.

DOUBLE TRACK TO SAN JOSE.

(BY DIRECT WIRE TO THE TIMES.)

SAN JOSE, Nov. 24.—[Exclusive Dispatch.] The Southern Pacific Company is losing no time now in the laying of its double track to San Jose. Large forces of men are scattered along the line of the road between here and San Francisco, actively laying track or making way for it.

The surveying crew reached Santa Clara Saturday afternoon and were in that place today, setting their stakes for graders. In a few days they will reach San Jose, when their part of the work will be done. It is stated that fully three-fourths of all the work has been completed for bringing the second track to San Jose. All work will be done and the road ready for trains by the first of the year.

### JACKIES FROM THE EAST.

Coming to California by Special Train

Which Will Be Given Special Rights and Will Make Fast Time.

(BY DIRECT WIRE TO THE TIMES.)

NEW YORK, Nov. 24.—[Exclusive Dispatch.] A detachment of 300 sailors and five officers left the Brooklyn Navy Yard today for Mare Island, where some will be assigned to ships which are to sail for the East and others be assigned to the transport Hancock, which will be brought to the local yard to replace the Columbia as the receiving ship. The sailors will be carried to California in a special train, consisting of a baggage car, one sleeper and five coaches. The cost of transporting the sailors across the continent will be \$10,000, and the cost of carrying the officers will be \$500.

This is the first time for more than a year that a special train has been made up for a detachment of men from the Brooklyn yard. The train will be given special rights and will make fast time. There will be very few stops, and it is expected that the trip will be made in about 115 hours. Lieutenant-Commander John Dougherty is in command. The other officers are Lieut. Commander Ensign Miller, Boatswain Baker and Carpenter Barton.

The pressing need of men for ships in all parts of the country is emphasized by the fact that one is to be sent to California to fill out the crew which are being made up for the ship at that station. There are fewer enlistments in the West than there are in the East, and there is a constant call for men to fill out the crews which are scheduled to sail for the Philippines. Recruiting stations which have been established in interior cities have been more successful near the eastern seaboard than they have in the western. The result is that a large part of the bluejackets for western stations have to be transferred from the East. This involves great expense and some delay to the government.

### SUGAR REFINING PROCESS.

Alleged Failure of the New Chemical Method Adopted by the Federal Company Is Denied by Spreckels.

(BY DIRECT WIRE TO THE TIMES.)

NEW YORK, Nov. 25.—[Exclusive Dispatch.] The Journal of Commerce says: "Now that the interest in the alleged failure of the new sugar refining process has been revived by the restoration of prices, sugar trade circles are discussing a new topic in the shape of the alleged failure of the chemical refining process adopted by the Federal Refining Company when it began operations last summer. Much was claimed for the new process, which was developed by Charles A. Kern, a German chemist, and which was patented by Kern and Claus A. Spreckels, president of the Federal company, jointly."

"It is reported in trade circles that the new process not only failed to reduce the loss of sugar in refining, but on the contrary, has resulted in an increase in this loss, hence the alleged abandonment of the process. It is further reported that the Federal company is about to install in its factory at Yonkers machinery of the kind used by the other refineries employing bone black as the chief refining agent."

"When questioned last evening in regard to the report of the alleged failure of the chemical process adopted by the Federal Refining Company, Spreckels said: 'There is no truth in the report that our process is a failure. We are selling all the sugar we produce at full rates. I have nothing more to say on the subject.'"

### Chinese Merchant Murdred.

SAN FRANCISCO, Nov. 24.—A Chinese merchant was shot and fatally wounded as he lay in his bunk this morning. The victim, Chuk Shu, died at the Receiving Hospital a few hours after he was shot. His supposed murderer, Chan Gung Sing, is in the city prison, and Lew Lin, accused of complicity in the crime, is also under arrest. The man was a member of the Sui Dong Tong, the prisoner belonging to the Ping Kong Tong. Chuk's life was to square accounts for the killing of a Ping Kong man in Walnut Grove, California.

### THE PRESIDENT'S CALLERS.

(BY THE ASSOCIATED PRESS—P.M.)

WASHINGTON, Nov. 24.—The President will put the finishing touches to his annual message to Congress tomorrow. The document is practically completed now, but it is the President's desire to finally consult several of the leaders in both branches of Congress as to one or two features of the message before he commits it to the hands of the printer.

The President arrived in his office early today, and soon was besieged by callers. During the hours until lunch time he had brief conferences with Senator Alton of Iowa, Lodge of Massachusetts, Foster of Washington, Quay of Pennsylvania, Fairbanks of Indiana, Stewart of Nevada, McComas of Maryland, Elkins of West Virginia and Sherman of Montana, and with Speaker Henderson and Representative Cannon of Illinois, Babcock of Wisconsin, Boutelle of Illinois and Landis of Indiana.

Nearly every one of the callers was with the President for a time that no opportunity was afforded to discuss the important questions, the consideration of which is involved in the message. Many of them announced as they left the executive offices that they had merely called to pay their respects. Few of them discussed with the President any matters of policy.

With the views of all the President is reasonably familiar.

With Senator Quay and Speaker Henderson, the President was in conference for half an hour or more. The former did not hesitate to express to the President his opposition to any tariff revision, either at the approaching short session of Congress or in the next Congress. He expects to present the State this winter the Territorial Statehood bills, and is very optimistic as to the result. By agreement, the Statehood bills will be made the unfinished business of the Senate soon after the session begins.

The President conferred with Speaker Henderson about the status of legislation in the House during the short session, but the Speaker declined to enter into any details of the conference.

Mr. Cannon had only a brief interview with the President, during which they discussed no public questions. It

## Senator Cullom Expects a Long Fight Over Legislation Against Combines.

(BY DIRECT WIRE TO THE TIMES.)

WASHINGTON, Nov. 24.—[Exclusive Dispatch.] Senator Cullom will introduce an anti-trust bill which he has prepared, but he has slight hope of seeing effective trust legislation passed at the coming session of Congress. The Senator has given the subject a great deal of study, but admits that he doubts if the measure which he has drafted will fill requirements.

"The present condition of affairs," said he, "is of rapid growth. We have never attempted to analyze them until lately, and we have discovered that it is a proposition in dealing with which the utmost care must be used, or else the business interests of the country will suffer. We also must keep within the bounds of the Constitution. It is my opinion we will be fighting it for a long time before we hit the right place."

The Senator's bill will be an amendment to the existing anti-trust law, and its provisions are intended to make an enforcement of the Sherman act an easier proposition. It is generally believed here that the measure which Senator Cullom will introduce is the one favored by the President and Atty.-Gen. Knox before writing it, and that he has since read the President's message, so far as it concerns trusts, but says that he received no assistance from either of these officials in drafting the bill.

Representative Jenkins of Wisconsin arrived here tonight, and announced that he favored a Constitutional amendment as the best way of getting at the trusts. The importance of this pronouncement lies in the fact that Mr. Jenkins will undoubtedly be chairman of the House Judiciary Committee, and as such will have charge of anti-trust legislation before the House.

### SPANISH CLAIMS COMMISSION.

SPAIN NOT ALL RESPONSIBLE.

(BY THE ASSOCIATED PRESS—A.M.)

WASHINGTON, Nov. 24.—The Spanish Claims Commission has announced the principles by which it will be governed in passing upon the various demurrals which have been submitted to it in connection with the claims under consideration, on account of the war between Spain and Cuba. The general basis is laid down that, in assuming the responsibility which would otherwise have been Spain's, the United States is bound to pay all claims for which Spain could have been held. It is further held that the insurance in Cuba had gone beyond the control of the Spanish government, and that it was not responsible for damages done to foreigners by the insurgents. If, however, it be shown that the Spanish authorities might have prevented the damage done in any particular case by the exercise of due diligence, the commission announces that it will hold that Spain is liable.

The committee announces, further, that it will take judicial notice that the Cuban insurrection passed, from the first, beyond the power of Spain, and so continued until the intervention of the United States. It is further held that Spain was entitled to adopt such war measures for the recovery of its authority as are sanctioned by the rules and usages of international warfare. If, however, it be alleged and proved in any particular case that the acts of the Spanish authorities or soldiers were contrary to such rules and usages, Spain will be held liable in that case.

This decision does not, however, go to the extent of saying that the reconcentration orders were legitimate acts of war. There is to be a further argument on that subject.

# MORTON COMPLAINS ABOUT LOW RATES.

(BY DIRECT WIRE TO THE TIMES.)

CHICAGO, Nov. 24.—[Exclusive Dispatch.] "Railroad freight rates are lower than they ought to be under the new scale of rates," said Paul Morton, second vice-president of the Santa Fe Railroad, made this statement today, and allowed it by declaring that a campaign was about to be started with a view to raising all freight rates in the territory west of Chicago to the Pacific Coast.

Morton advocates an advance of at least 10 per cent.

"Some measure will have to be taken very speedily," he declared, "to readjust all our freight tariffs to meet the demands of the situation. The Santa Fe, for example, will have to pay \$300,000 more wages next year than this year."

Morton has just completed a careful inspection of the Santa Fe line in the Southwest and in Colorado, New Mex-

ico, Arizona and California. He said that the company

most of the concern is H. E. Pool, and among the largest stockholders are Chaseiro Bros., heavy fish operators of New York and Boston. The company has signed contracts to ship over a hundred carloads of frozen halibut and salmon to the Atlantic Coast, sending them forward at the rate of ten to twelve carloads monthly. The company employs the steamers Edith and Alaska, and has just ordered the building here of another halibut steamer.

The company has absorbed the Tacoma Fish Company and the Pacific Halibut and Trading Company, including their packing plants at Tacoma and Tee Bay, Alaska. It plans to become the largest handler of fresh and frozen halibut and salmon in the United States. It will extend its business to all Eastern states, and has commenced shipments to oriental countries. It and dried fish in large quantities will be exported to Japan, commencing this season.

**SUIT FOR LARGE SUM.**  
(BY THE ASSOCIATED PRESS—P.M.)  
SAN JOSE, Nov. 24.—Suit was begun today in the Superior Court by Karl H. Plate against W. H. Wright and his wife, Mrs. Myra Wright, G. Osborne and the San José Fruit Packing Company to recover property valued at \$100,000.

The complaint alleges with allegations of fraud and perjury that the litigation begun some weeks ago in San Francisco, by which it was sought to have Wright account for monies delivered to him, been appropriated for a certain clique of stockholders, previous to the sale of the company to the United States, and that he, Wright, elected his own directors in the interest of diverting the profits of the fruit packing company to his own use.

(BY THE ASSOCIATED PRESS—P.M.)  
ARKANSAS, Nov. 24.—The last day's work of the subcommittee of the United States Senate committee on Territories was a busy one. The committee heard testimony from over five hundred miles in Oklahoma and the Indian Territory yesterday. The committee early this morning took up the hearing of testimony at Oklahoma City, where it will stay until tonight.

Representatives from all parts of the two Territories had assembled. In the afternoon, the committee held sessions at Guthrie, where other delegations came from many miles around. DeWitt H. Flynn, the Territorial Delegate to Congress from Oklahoma, came from Washington to meet the committee.

## CZAR MAY ABDICATE

### Helpless Against Power of Great Nobles.

### Forced to Give up the Mesmerist, Philipp.

### Early Hopes of Making His People Happier Bitterly Disappointed.

(BY THE ASSOCIATED PRESS.—A.M.)  
ST. PETERSBURG, Nov. 24.—[A.P. Telegram.]—It has been learned that the recent summoning of Dr. Merzhivsky, one of the foremost specialists in nervous diseases, to the court of Russia, which gave rise to the report that he was going to attend the Czar or the Czarina, or both of Their Majesties having in turn been alleged to be suffering from melancholy, was to visit Bakhkava, when the Grand Duke Nicholas Konstantinovich is detained as insane.

Some observers of the situation do not believe the accession of the Grand Duke Vladimir, uncle of the Czar, to the throne, in the event of his abdication, and the death of his brother, the Grand Duke Michael, their presumptive, would be unpopular, they do not credit the report that the Emperor will abdicate in favor of Vladimir, who would materially alter the existing state of affairs, as the charges are ignorant in regard to even the existence of the Grand Duke Michael, and people attach merely superficial importance thereto. The possible effect of the "Tracoman" system under the Czar's rule, and the possibility of a revolutionary movement, is regarded as the speculation.

The Emperor's court physician, Philipp, the mesmerist who is said to have the Czar completely under his influence, are said to be a former French physician, who is a naturalized Russian, and that he has been in Russia for about a year, and is living in the homes of two Montenegro nobles, who are said to be his friends. It is added that the Czar granted Philipp the right to practice medicine, and that he is a member of the Academy of a military surgeon of the Emperor's council of state, which equals that of a general.

It is asserted that the court physician, Dr. Ott, went to Livland and succeeded in persuading the Czar to abdicate in favor of his son, the Grand Duke Nicholas, and the capture of the Czarina, and the capture of the Grand Duke Michael, and the capture of the Ministers of War, of the Interior and of Finance from Livland was interpreted as a sign of the Czar's intention to abdicate. It is also said that these ministers jointly presented a resignation to the Emperor, and that the Czar, who defended Philipp, and resented what he considered interference with his personal affairs, had refused to yield. This is looked upon in some quarters as evidence that the Emperor's mental condition requires limitation.

Numerous persons who have received information within the past few days assert that the Czar has been weary and disgusted because his early hopes of introducing a happier regime as Russia were frustrated by the reactionists, whose intimidation caused a disastrous result upon him. It is asserted that he is weary and demands, which was strengthened by the sudden death of the Grand Duke Michael, and the latter's denunciations of public appearances. Persons knowing the Czar assert that if he was to abdicate in favor of his son, the Grand Duke Nicholas, and the Czar's domestic happiness, he would abdicate.

The acceptance of the lucrative but unimportant administration of the manager, by the Czar's bosom friend, Prince Oudensky, is interpreted as a change to "ease" before possible changes which destroy the value of his personal influence.

The Danish government has obtained a promise from the Czar that he will order to Livland possibly indicates that he is crisis is past.

### PULSE OF PROGRESS.

### People of Far-away Iceland Feeling Its Thrust and Moving Toward Higher Industrial Standard.

(BY THE ASSOCIATED PRESS.—A.M.)  
COPENHAGEN (Denmark) Nov. 11.—[Associated Press Correspondence.]—Vired from Chicago, Nov. 24, A. J. Buehler, a resident of the island of Iceland, from Iceland, gave the correspondents of the Associated Press here today some interesting information on the fisheries and conditions in Iceland. The Danish government has observed that the fishing area is moving toward, owing to the large and decreasing number of fisherman, from the Scandinavian coast. It has therefore undertaken a survey of waters near the Faroe Islands, Iceland, and the British Isles, in order to determine the value of the fishing grounds. This work is conducted by the Danish government, and the results are interesting. The fishing grounds are being moved toward the British Isles, and the fishing interests of Denmark. It has been discovered that immense quantities of fish are being taken, and the fish are being sold at a high price. The fish are being sold at a high price, and the fish are being sold at a high price. The fish are being sold at a high price, and the fish are being sold at a high price.

In any case, the Czar's abdication is a step toward the future of the Russian Empire, and the Czar's abdication is a step toward the future of the Russian Empire.

## GHIRDARELLI'S AROUND CHOCOLATE

ONE of the most trying things every honest manufacturer has to contend with is the spirit of substitution that is rife today in every branch of the retail trade. A manufacturer by years of patient toil succeeds in making a reputation for his line of goods, and when that reputation has been earned, imitations and substitutes of his brand are put up to deceive the buying public. To the customer the manufacturer looks for his protection. Buy therefore the brand of goods you know to be standard and, when you want the best of all **Ground Chocolates**, insist on having **Ghirdarelli's**. No substitute is as cheap or good.

there in large numbers for the purpose of participating in the catch. As to Iceland proper, important changes have taken place among its people. They had been rather intemperate and unprogressive for some time, but temperance has now made much progress among the people.

The agitation for a more liberal constitution also awakened a spirit of intellectual progress among the Icelanders, and the mother country has now granted their request to have a separate minister, who is to reside in Iceland. Heretofore matters pertaining to Iceland have been cared for by the Danish Minister of Justice.

Economically there is also an upward trend in Iceland. Trade with Denmark hitherto has largely been a matter of barter for the great disadvantage of Iceland. Now, however, it is conforming to modern methods, with money as the medium of exchange. Salmon fisheries are being exploited in the country, and plans are on foot for establishing large canning factories along the rivers, which furnish excellent water power, and Englishmen and Americans are taking an interest in this project.

The tourist trade to Iceland, especially from England and America, is rapidly increasing.

BY THE ASSOCIATED PRESS.—A M I  
WASHINGTON, Nov. 24.—The State Department is thoroughly well informed of the length to which Great Britain, Germany and other European nations, engaged for some months in an interview today Gen. Velutino said: "The revolutionists have 1000 men at Barcelona today, but I do not believe any hard fighting will be necessary to capture these troops. I command the Andinos, which will enter the combat with the prestige of victory. With the fall of Barcelona and Ciudad Bolivar the revolution will be ended, and Venezuela will enter on a brief period of peace. A new revolution will have to wait. There can never be another Matos supported by foreign capital, leading military chiefs, warships, 10,000 men and plenty of ammunition."

## Warm, Healthy Blankets, Best Kind, Lowest Prices.

Perhaps you have not seen our previous advertisements about blankets. If so, you should lose no time in coming to the store. We dislike to make reflections on such subjects, but you know how much better Hale blankets are. Our Eastern buyers worked so diligently to secure them, it would be folly for us to keep silent.

And how they go! The moment a housekeeper inspects the different kinds she realizes what exceptional values Hale's is giving. Prices range downward to the lowest figure you would care to pay, yet every blanket is honestly made. Here are some of the kinds that will most interest you:—

**Heavy, Downy Comforter, \$1.50.**

But it's worth more. The least price you would have a right to expect would be \$1.50. Comes in a large size, lined with fine, clean, fluffy cotton—would wonder how nearly it approached down. Covered with finest quality of heavy-weight silk—thin, in purity, fancy patterns. You can't imagine what a splendid covering it is. Only 25¢ of them.

**Blanket Bargains**

Such a host of them are here we must make briefly. Each item below is a value that will give you the greatest surprise and satisfaction.

**\$1.15 BLANKET.** \$2.25—24-4 size blanket, 50 per cent. wool, comes with fancy borders, silk-bound edges.

**\$1.00 BLANKET.** \$1.00—34-4 size, 50 per cent. purest hand's wool, heavy silk-bound edges, fancy-colored borders.

**\$2.50 BLANKETS.** \$2.25—34-4 size, all-wool filled, with fancy borders and silk-bound edges.

**\$2.50 BLANKETS.** \$2.25—34-4 size, extra light, all-wool filled, fancy borders and silk-bound edges.

**\$2.25 BLANKETS.** \$1.50—Pleasant white blanket, all wool, size 34-4 to 50. Fancy colored borders and silk-bound edges.

**\$2.25 BLANKET.** \$2.25—Finest quality of Oregon wool, size 34-4 to 50. Fancy colored borders and silk-bound edges.

**\$2.50 BLANKETS.** \$2.25—White blanket, size 42 by 56, made of pure lamb's wool. Oregon make, fancy borders and silk-bound edges.

**\$2.00 BLANKETS.** \$1.75—34-4 size, 50 per cent. wool, heavy-bound ends and fancy borders.

**Hale Blankets \$4**

In dry-goods circles this blanket is known as "wool filled" (that is, it is nearly all wool, with a limited amount of cotton in the warp) to figure great durability. It's one of those soft, cozy, warm blankets. Our own cash-price for 34-4 would be \$4.50, although many stores ask \$3.00. This year's price \$4.00.

**Hale blanket, \$3.50**

This comes with 75 per cent. wool. Many housekeepers prefer just such a proportion, plenty warm enough for the coldest nights, full 34-4 size, with heavy bound edges and fancy borders; \$3.50 would be our usual price, this year's price \$3.30.

**1.50 Pair of Blankets, out of line.**

Following are some blankets at absurdly low prices, which are just what many women are on the watch for. They come in gray, tan or white. We'll tell you the Hale price and the regular retail value of the blankets. In most cases the quantities are limited, so you had best come here as you have opportunity.

**2.00 Blankets, 75 pair.**  
**\$1.25 Blankets, \$1.00 pair.**  
**\$1.25 Blankets, \$1.25 pair.**  
**\$1.25 Blankets, \$1.25 pair.**

**\$2.50 Comforter, \$2**

You see we have a reputation to sustain in the matter of blankets and comforters. We mean to always give better values than you would get elsewhere. For instance, we will sell a standard \$2.50 comforter, an extra-large size, extra heavy weight, lined with the finest cotton, quilted in fancy designs and covered with the finest grade of material, at \$2.00 while they last.

**THE DINING CAR—CALIFORNIA LIMITED**

All meals on table are served in the dining car. Breakfast and luncheon, a la carte; dinner table d'hôte.

On the California Limited one may enjoy the privilege of repasts which only the best metropolitan hotels can duplicate.

The Santa Fe dining service has a national reputation; the system includes several excellent depot hotels—namely the Alvarado, Albuquerque, and the Catalina at Las Vegas.

The Alvarado is the finest railway hotel in the Southwest. Its architecture is that of the old Spanish missions—exquisite unvarnished, furnishings luxurious. A superb late Indian curio exhibit in connection.

## THE CITY IN BRIEF

## NEWS AND BUSINESS

## Beekeepers

The California State Beekeepers Association will meet in the Chamber of Commerce rooms on Tuesday, December 15, for a three-day session. Of the 200 members it is expected that at least twenty-five will be present.

## Star Course

Tonight at the Young Men's Christian Association Auditorium, Rev. Thomas A. Boyer will deliver a lecture on "What Time Is It, and Where Are We?" This is the third event of the Star Course, arranged by the Young Men's Christian Association.

## Shop Meetings

Francis Murphy will address the men at the Lewellyn Iron Works at 12 o'clock today, and the Southern Pacific men at River Station tomorrow at the same hour. His subject will be "The Nobility of Labor," and the managers at these shops are offering Mr. Murphy every facility in order that he may talk to their employees.

## Sailors Set Back

J. Schmitt, E. Mohr and Albert Prata, three sailors who deserted the British ship Oweens at Port Los Angeles, were examined before United States Commissioner Van Dyke yesterday, and committed to the care of the United States Marshal. They will be returned to their ship this week. Since the Oweens arrived at Port Los Angeles, two weeks ago, nine sailors have deserted, but only these three have been captured.

## Griffiths Harbor Work

Bids will be opened tomorrow at the office of the United States Engineer in the Bradbury building for the completion of the jetty on the Zuniga shoal in San Diego Harbor, for which \$5,000 was allotted under the Rivers and Harbors Act of the last Congress. The present jetty is extended about 300 feet in a low-water depth averaging twelve feet. The money now available for the work is \$35,000, but it is intended to expend \$50,000 on the work.

## Roof Burned Off

The overturning of a lighted lamp in the two-story residence at the northwest corner of Sixth and San Julian streets at 5:45 o'clock last evening caused a fire which damaged the house to the amount of \$600 and the contents \$200. The house is the property of Mrs. M. A. Clarke, who is now in Santa Monica. The upper floor was occupied by the family of A. V. Quilter and the lower floor by Mrs. Dusenberry. The loss on the building is fully covered by insurance, but there was no insurance on the contents.

## BREVITIES

Connelly Turbans and Crofts hats must have their respective names on crown lining to be genuine. Spil-lad's hatter, sole agent, 121 S. Spring street.

Peter Olson, Swedish medical gymnast and masseur, (formerly with the Swedish Institute). Treatment given by appointment. 1320 W. Eleventh st. Visit Plymouth Church bazaar, 504 W. Twenty-seventh street, this afternoon and evening.

Ernest L. Reynolds, M.D. Specialist in female and nervous troubles. Office 445 S. Main st.

Pine cabinet photos reduced to \$1.15 per dozen. Sunbeam, 238 S. Main.

Little Webb's eye clinic hand-operated; healing, soothing. Try it once. Best electric wiring. N. D. Bishop Electric Co., 227 W. First st. John 5576.

There are undelivered telegrams at the office of the Western Union Telegraph Company for J. Laventhal, Helen Wakefield, Edw. Johnson, Second National Bank, Oscar Richardson, Joe Ervin, Bricker & Coats, Mary Easley, Julius Lasey, M. F. Brock, G. Gorwitz, Floyd Mitchell, C. C. Childs.

## LOCAL SPORTING RECORD

## BALK-LINE TOURNAMENT FOR AMATEUR PLAYERS

## SEVEN PLAYERS TO CONTEST FOR A GOLD MEDAL

The amateur balk-line billiard players of this city will have an opportunity next week to display their skill. Next Monday night Henry Herry of the Hoffman billiard rooms will start a 14-inch balk-line tournament for class B players.

Seven entries have already been secured and more are coming in before Monday. Each will play one game with every other player for 150 points, and the winner will receive a gold medal emblematic of his victory, which he must win three times to come into permanent possession of. The winner will be compelled to defend his medal every thirty days on challenge from any player in the tournament.

Play will begin next Monday night at 8 o'clock.

## BASEBALL

## LOOLOS REACH HOME

Slightly disfigured in the percentage column, but still able to play ball, the Loolos reached here yesterday from their last northern trip of the season, and tomorrow will open the final two weeks of the long baseball season. The San Francisco Has Beens will be here tomorrow for six games and the Oakland will come next week for the closing games.

On Thursday there will be two games in a continuous performance. The first game will be called at 3 o'clock sharp, and at its conclusion the second game will be played. The fans will thus be enabled to see both games for the price of one admission.

Wednesday, Thursday and Friday will be ladies' days and they will be admitted to the grounds and grand stand free of charge.

## Racing

J. W. Brooks, manager of the Los Angeles Racing Association, returned yesterday from San Francisco and will now begin in earnest his preparations for the proposed running meeting next February. He reports that the present racing season at Ingleside is not a brilliant success from a betting standpoint.

## BOWLING

HEFFNER'S GOOD SCORES. The directors of the bowling association will hold a meeting next Friday night in the Temple Block to arrange the schedule for the coming tenpin tournament. This will start in a few weeks and promises to develop all the old-time interest in the sport.

McDonnell threw up his hands last night at the Marble Palace alleys after four games, and Heffner was declared the winner in his scheduled match.

Heffner won in fifteen games for \$50.

a side. Heffner was to give his opponent a 200-pin handicap, and when the first eight games had been bowled last Friday night, Heffner led by 400 pins. Last night after four games Heffner had increased his lead by 217 pins, and McDonnell quit in disgust.

Heffner's scores were 205, 191, 248 and 258, an average of 225 1/4 for four games.

## FARMERS' INSTITUTES

Farmers' institutes, conducted by Prof. A. J. Cook for the University of California, will be held in Southern California as follows: Imperial, San Diego county, next Friday and Saturday; Coachella, Riverside county, next Monday and Tuesday. Prof. McClatchie of the experiment station, Ariz., and J. W. Mills, of the Pomona station, will aid in the conduct of these institutes, speaking on subjects of especial value in these new regions. Valuable local papers have been prepared and will add greatly to the interest of the institutes.

The annual clubs' institute will be December 15-19 at Santa Ana. The Santa Ana people are thoroughly aroused and are preparing to make this institute a record breaker. As at Pomona last year, a banquet and an excursion will help to make the occasion interesting. All the counties will take part and such important topics as legislation, fertilization, spraying and fumigation, frost protection, lemon and orange culture, the exchange, handling the soil etc., will be presented by the ablest authorities on those subjects. Prof. Woodworth of the university, and Dr. Gates, president of Pomona College, will give addresses. Dr. Gates will present the subject of direct legislation. It is hoped to have a large number of legislators-elect of California present at the meeting.

## MARRIAGE LICENSES

The following marriage licenses were issued yesterday from the office of the County Clerk:

William Sherman, aged 21, a native of Germany, and Mary L. Livingston Walters, aged 22, a native of Arizona.

Emmett Harvey, aged 29, a native of Texas, and resident of Temple, Tex., and Zella Dorothy Squire, aged 19, a native of Arkansas and resident of Los Angeles.

Burton M. Hutchins aged 23, a native of Colorado and resident of Colorado Springs, and Verda Fawcett, aged 20, a native of Iowa; resident of Pasadena.

## My Experience Recommends Me

TO EVERY THINKING MAN. IT IS NOT enough to cure the disease, it is unusual, both in quantity and quality. It is a sixteen years of the most studious, thoughtful and conscientious practice possible. It is experience out of which have come the only truly scientific methods of treating men's diseases, and that enables me to offer service such as no other physician or specialist can render. It is experience that makes it possible for me to thoroughly comprehend the necessities of every case that comes to me for treatment, and to treat without error or failure.

DR. O. C. JOSLEN,  
The Leading Specialist.

Contracted Disorders—He sure your cure is thorough. Not one of my patients has ever had a relapse after being dismissed as cured, and I treat in less time than the ordinary forms of treatment require.

Varicose—Absolutely painless treatment that cures completely in one week. Investigate my method. It is the only thoroughly scientific treatment for this disease being employed.

# POSITIVE CURE FOR WEAKNESS

My success in curing those derangements commonly termed "weakness" has done more to extend my reputation as a specialist in men's diseases than any one other thing. I was the first to discover the fact that "weakness" is merely a symptom resulting from a chronically inflamed prostate gland, and to remove this inflammation is the only method permanently restoring lost vigor. The daily my system of local treatment is the only successful one in use. In years I have not failed to effect a complete cure, which is a statement that cannot truthfully apply to any other treatment being employed in these cases. Of course, there are occasional cases that have passed into the incurable stage, and these I do not treat at all. My long experience enables me to recognize them and to select only such cases as I can cure permanently.

# Piles

No matter how severe or how long they have existed, I can cure them. Every case of piles that comes to me for treatment. I have had heretofore made mention of this trouble as a chronic ailment, but I am constantly curing them. My method is simple, and I am unable to relieve. My treatment is mild, gentle and certain, and my practice is to cure the disease, and not to remove every derangement and its effects.

# Reflex Ailments

Often the condition appearing to be the chief disorder is only a reflex ailment from some other disorder. Weakness sometimes comes from a chronic inflammation of the prostate gland, and from this condition follow a host of other troubles. My long experience in treating men enables me to determine the exact conditions that exist, and to remove every derangement and its effects.
